

Group Contract

Team's purpose and objectives

- To develop our teamwork and technical skills through creating quality, presentable software.

Common values and standards

- Clear and timely communication
- Accountability
- Support and community
- Resilience
- Learn and apply best practices

Roles, responsibilities, and accountability structures

Roles will be assigned when official tasks become more concrete. They can differ from task to task and are subject to change through explicit communication.

Potential issues and corresponding conflict-resolution strategies

- Unassigned work
- Inability to complete assigned tasks

Situations where group "rules" are not being followed

Set up transparent communication protocols

1. Personal Goals

- What do you individually hope to achieve with this project?
 - I hope to learn more about WebDev and become proficient in Git
 - I hope to become more familiar with backend development and industry standard engineering practices
- How will achieving these goals benefit the team overall?
 - The team will be able to learn about how to develop software on a team

- This will help us land internships and careers in future software development
- How can the project experience help advance your personal development goals?
 - I want to improve my soft skills
 - I want to learn to learn how to work better in a group and work on projects for a sustained period of time

2. Values, Mission, and Common Goals

- What core values and guiding principles will your team uphold?
 -
- Why are we engaging in this project?
 - To gain experience working as a team
 - Gain experience in software development
- What unique value do we intend to bring?
 -
- What outcomes or milestones does the team aim to achieve together?
 - We hope to learn about efficient team management and helping each other accomplish larger projects

Team Purpose and Objectives: The team will

3. Strengths and Weaknesses

- What strengths and unique skills does each member bring to the group?
 -
- Identify weaknesses or areas requiring improvement.\
 -
- How will you address weaknesses?
 - We will communicate to make sure each person's role meets their strengths. If they do not feel confident in it, they can be paired up with someone who is more experienced, and given pointers on where they can learn more about how this part of the project works.

4. People, Roles, and Accountabilities

- Clearly specify roles within your team.
 - Tip: You may want to have some flexibility in your team's roles to account for absences and busy schedules.
- Assign responsibilities to each member to ensure accountability.
 - Broad roles that are flexible to change → clearly communicate tasks
- Account for logistical responsibilities, such as taking meeting notes, creating tasks, etc.
 - All share meeting note responsibilities

5. Needs and Expectations

- Clarify what you need from one another to succeed.
 -
- Outline clear expectations for collaboration.
 -
- Discuss your individual availability and schedules to highlight any risks relating to time commitment and resource management.
 -
- Define your team's communication strategies.
 - Our main mode of communication will be over Slack.
- Discuss your conflict resolution process.

Meeting Attendance Policy: Try to attend as many meetings as possible. We have mandatory weekly meetings (1 Hour) with the entire team. Please communicate 24hrs in advance if you are not able to make it to the meeting. A maximum of 3 unexcused absences from the meeting will result in a conversation regarding the team member's commitment with the TA and another team representative.

Strike System:

Must attend more meetings in person than attending on zoom.

Post Meeting Announcement/Summary: Team Leads should post a summary of the meeting and tasks for each person, for the week on Slack. Team Leads will switch off between this task.

Weekly Meetings in Person: Starting Week 4 we will meet in person. For extenuating circumstances a zoom link will be provided. Smaller sub meetings will be left up to the discretion of the members, but in person scheduling is highly encouraged.

6. Rules and Activities

- Explain your team's intended working methods and processes.
- Describe how your team will measure success throughout the project.
- Outline the approach to ensuring fair and equal contributions from all team members.

Working Methods: For each project/assignment, we shall divide the task into subtasks and assign team members to those subtasks.

Measuring Success: Timely Submission, meeting the documented criteria and guidelines.

Ensuing Fair and Equal Contributions: For each project/assignment, we shall have a document detailing what each team member contributed. We will also have detailed meeting notes.
